

Tritex Conveyor Strip

Technical Information Sheet

Stock Code PEPX63100KRH10

A heat resistant needle felt pad to minimise damage to aluminium profiles during transportation immediately after the extrusion press. The pad is easy to fit and has high wear resistance. Gives a long service life at elevated temperatures.

APPLICATION	Tritex strips for walking beams and slat conveyor for aluminium extrusion run out tables.
COMPOSITION	Needlefelt, comprised of 100% para-aramid fibre.
OPERATING TEMPERATURE	Can be operated at up to 550°C
NEEDLEFELT PARAMETERS	10 mm thick – 3100 g/m ²
AVAILABLE SIZES	On request.
RESIN HARDENING	All Tritex strips are available impregnated with a specially formulated resin-hardening system increasing the life and durability of the strip.
