

Tritex Oven Mitt

Technical Data Sheet

Stock Code M700PETLB

A heat resistant mitt that is designed to protect the user during the manual handling of hot items. This Mitt provides protection for the forearm. It is easy to put on and take off so will prevent injury to the wearer if the mitt is caught in machinery.

Application	Tritex mitt is for manual handling of items at elevated temps
Composition	The working surface has two layers of woven polyester. The third layer forms the pocket to insert your hand. All edges are over lock stitched with polyester thread. Made in blue, so as to be highly visible and with a metal detectable strip.
Operating temp	Protect the wearer form hot surfaces up to 220°C for short periods
Material	Single twist polyester yarn woven to 700gms / sq m
Available Sizes	230mm x 355mm
